***Reasons for Allowance***

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claims invention of a class of efficient and scalable algorithms incorporating rules of natural selection is adapted to a networked architecture for performing a distributed network-based search and consequential decision making. The algorithms are applied at each node in a logical cluster of nodes. In alternating manner, the algorithms are applied using information available in local databases connected to each node, followed by transferring information between nodes using mobile agents. An optimized solution is produced from available information quickly and efficiently by evolutionary agents performing local operations at their respective nodes and swapping progressively increasing optimized information between evolutionary agents at different nodes using mobile agents.

The closest prior art (Seredynski, IEEE 0-7803-3104-4; Potter et al, The Third Parallel Problem Solving from Nature) wherein Seredynski teaches game-theoretic models of limited interaction between individuals in competing populations. Potter teaches a cooperative coevolutionary approach to functional optimization where complete solutions are obtained by assembling representative members of each of the species present with credit assignment at the species level defined in terms of the fitness of the complete solution in which the species members participate. Neither prior art teaches cooperation at the node or species level wherein optimizing information is

directly transferred. Therefore the claimed invention improves the optimizing process by providing a cooperative solution at the node, agent or species level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
